

The routine inverted microscope for cell biology.

This is where an innovative inverted microscope, the **Axiovert 40**, steps in.

Its superior optical performance and exceptionally wide range of functionalities place it at the top of its class. Really unique: PlasDIC, the outstanding relief contrast.

In terms of flexibility, operating comfort, stand stability and component quality, it is obvious that the **Axiovert 40** is another outstanding Carl Zeiss microscope. A microscope that meets the demands of professionals who want a more cost-effective, appreciate flexible and easy upgrading options, expect an investment in a microscope to be a safe investment.
